Re: Refined Image Property Maintenance

To Whom It May Concern:

The above captioned company has been taking care of our property maintenance at our condo for this past year. We were not satisfied with our previous company and Jeff Lenting and his company came highly recommended to us. We have been more than satisfied with his performance at our condo building..

When he took over this contract, his company got the building back into shape and advised us on items that had not been taken care of previously. Many tenants remarked on the change in the grounds and how much better it looked. Jeff is very personable, as are all his employees, and has accommodated any requests we have made of him.

As President of the Board of Directors of Chambers Gardens, we highly recommend this company.

Yours truly
